

About Us

Greater Boston Home Health Care Services offers homemaker, companion, home health aide and personal care services certified by the Massachusetts Executive Office of Elder Affairs. All our caregivers are cross-trained, fully qualified and screened using the Criminal Offender Reporting Information System of Massachusetts and the Massachusetts Nursing Registry.

“I appreciate all of your help. My mother had great care from your agency over the past months. I would especially like to recognize her aide who held mother’s hand every day and really connected with her. She was truly wonderful. Thank you for your help in very quickly getting my Mom care for most of the day when her health took a turn for the worse.” – Matt | Cambridge, Massachusetts

Call today to discuss your options with one of our home care coordinators.

Our Services

Our services allow people who need assistance to remain independent in their homes. We help with bathing, dressing and other personal care needs as well as perform daily household tasks. Our caregivers shop for groceries and prepare meals. We offer transportation to medical appointments and social meetings and provide life-affirming companionship.

Home Health Aide

Support for a loved one who needs, for medical or health reasons, a higher level of caregiving that may include medicine reminders, grooming and dressing, assisting with mobility, utilizing safety equipment and other health related needs.

Personal Care

Assistance and/or supervision to a loved one who does not need medical support from a home health aide but does need help with bathing, dressing and mobility challenges.

“I like the communication, I know that if there are ever any concerns I will be immediately contacted.”

- John | Yarmouth, Massachusetts

Homemaker

For more independent minded loved ones, we offer assistance with housekeeping, grocery shopping, transportation and other errands.

Hospice Care

We understand how important quality end-of-life care is to a loved one and the family. We will help you arrange a meeting with one of our professional and compassionate certified hospice caregiver partner agencies and/or your local Visiting Nurse Association.

Elder Care Companion

On-site company and friendship for a loved one who may not have family nearby. This includes taking walks or escorting to an appointment, meal preparation, reading and leisure activities.

“We have 2 aides that come to help, one of the aides has been with my aunt for several years. The reliability has been great and helped to make life a bit easier.”

- Mary Ellen | Waltham, Massachusetts

Available 24 Hours a day...

Greater Boston Home Health Care Services is a Massachusetts-based homemaker, companion, home health aide and personal care provider certified by the Massachusetts Executive Office of Elder Affairs.

We offer customized support, from two hours a day to round-the-clock care based on each family's unique needs. We work closely with our state's regional healthcare agencies to help thousands of seniors in greater Boston, south of Boston, and across Cape Cod and Martha's Vineyard to continue to live comfortably and safely in their homes.

Our services include:

- Home Health Aide
- Personal Care
- Homemaker
- 24/7 Live in Care
- Hospice
- Elder Care Companion
